Time to be BEAR AWARE

DON'T LET YOUR FACILITIES OR DUMPSTERS BE AN EASY MEAL

Keeping bears away from human food can prevent conflicts and confrontations between bears and people

Report all bears at dumpsters and facilities: Contact SFS at (907) 552-7070

For dispatch of JBER Conservation Law Enforcement

At your facilities:

- Are they secure? (doors, locks, latches, etc.)
  - If not, submit a work request in NEXTGen
- Are your dumpsters in working order? Do you have what you need (bear-resistant)?
  - If not, call 773 CES/CEOES at 552-2379
- Is all food secured?
  - Vehicles & fenced yards are not secure!

Educate facility occupants:

- Do NOT prop doors open
- Keep bay doors closed when not in use
- Store MREs and food in secured buildings or connex
- Do not overfill dumpsters
- Make sure dumpster lids are latched
- ALL food waste must go in bear-resistant dumpsters

Don't let this happen at your facility! This creates dangerous situations that are preventable!

Preventing bear problems is everyone's responsibility. Feeding wildlife is **illegal** and can result in fines. (5AAC 92.230)
