Performs surveillance, combat identification, weapons control, tactical data link management, communications and computer system management. Coordinates Personnel Recovery (PR) and Search and Rescue (SAR). Counters electronic attack (EA) with electronic protection (EP) actions. Provides radar control and monitoring of air weapons during offensive and defensive air operations. Makes decisions in the conduct of battle management air operations and in system equipment management at the Tactical and Operational level of war. Related DoD Occupational Subgroup: 122100.

2. Duties and Responsibilities:

2.1. Operate C2 Battle Management Systems equipment. As a crew member of an operational unit, interprets radar data presentation to generate console displays. Compares and reports track positions based on flight data or database files. Performs surveillance, identification, weapons control, tactical data link, and data management functions. Conducts mission planning. Responsible for Battle Management and safety of flight for air operations being controlled. Tears down, loads, transports, unloads, and erects equipment and components. Perform EP functions. Maintains maximum radar sensitivity using EP techniques to eliminate degradation caused by electronic warfare (EW) activities or other influences. Monitor operation of radar inputs and countermeasure consoles, anti-jamming displays, and radar sensors to enhance radar presentations.

2.2. Operate Theater Battle Management Control System. Task and execute day-to-day air, space, and information operations; provide rapid reaction, positive control, and coordinate and deconflict weapons employment as well as integrate the total operations effort. Coordinate search and rescue and personnel recovery operations. Issue airspace control procedures and coordinate airspace control activities. Provide overall direction of air defense, including theater and ballistic missile defense. Produce and disseminate Air Tasking Orders, Airspace Control Orders, Special Instructions (SPINS), operational tasking data link (OPTASK LINK), tactical operational data (TACOPDAT), and Common Operational and Tactical Picture guidance, and any associated changes. Maintains logs, forms, and database files.

2.3. Operate Air Defense Battle Control Center equipment. Gather, display, record, and distribute operational information. Coordinate with and exchanges air movement and identification information among air defense, air control, range control, and air traffic control agencies on matters pertaining to aircraft operations. Plans data link operations. Operates data link equipment and other automated data exchange devices to gather and relay command and control situational display information to create a single integrated air picture. Report emergency signals and EA observations. Maintain logs, forms, and database files. Evaluate radar detection and performance. Maintain liaison with air defense artillery, and surface naval fire units to ensure safe passage of friendly air traffic.

2.4. Execute the air tasking order (ATO) as directed to meet the ground commander's objectives by coordinating and integrating air, space and cyber power in support of air component operations. Provide procedural control of CAS aircraft operating in the AO inside the Fire Support Coordination Line (FSCL). Provide procedural control of other air component aircraft as required. Establishes, maintains, and operates the autonomous reach-forward and reach-back communications architecture/infrastructure necessary for mission execution, to include the Air Force Air Request Net and Joint Air Request Net. Provides decentralized execution of immediate air support. Coordinates air missions that fly within the control area to deconflict with ground force maneuver and fires, in addition to receiving target and threat updates. Assists with time-sensitive targeting and friendly force location information.

2.5. Utilize Search and Rescue Satellite Aided Tracking information and the Air Force Rescue Coordination Center computer system. Conduct civil search and rescue. Coordinate with various national and international agencies. Monitor and serve as the communication focal point for ongoing search and rescue missions.

2.6 Performs training, planning, standardization and evaluation, and other staff duty functions. Performs staff assistance visits to subordinate units. Tests and evaluates capabilities of new equipment and propriety of new procedures.

3. Specialty Qualifications:
