

Environmental Review Request – Training Areas/Activities

Please fill out completely and return to Patrick Geary, 907-428-7157, patrick.geary@alaska.gov

This form will assist in completing the environmental review of your project. In order to avoid delays or constraints on training realism and mission accomplishment, consultation with the Environmental Office should begin as soon as active planning begins for military training and training-related activities and construction. This includes:

- On- and off-post training
- Training site development
- Innovative Readiness Training (IRT)
- Force structure realignment
- New or expanded use of a local training area (LTA)
- Sustainable Range Program (SRP) activities
- Integrated Training Area Management (ITAM) activities

Requester's name/unit:

Requester's phone number:

Requester's email address:

Date of request:

Location of proposed activity (**please attach a reference map**):

Proposed start date:

Proposed end date:

Project landowner:

Landowner contact information (if applicable):

Is an existing land use agreement in place?

If YES, please describe the type of land use agreement:

Is an existing building involved?

Age and/or name of building:

Will there be any ground disturbance?

What is the anticipated surface area of disturbance, including equipment/vehicle storage?

What is the anticipated volume of ground disturbance (below the surface)?

Will any vegetation be cut down?

What is the anticipated area that will be cleared?

If the proposed activities are part of Innovative Readiness Training (IRT), has federal funding been secured?

Provide a brief (1-2 paragraph) description of proposed training activities, in civilian language and without acronyms, that includes the location, need, and justification. Please attach and/or identify any supporting documents.
