

# DMVA INSTALLATION SPILL CONTINGENCY PLAN

## CAN YOU CLEAN UP WITH THE MATERIALS AND PERSONNEL YOU HAVE ON HAND?

This includes a leak, fuel spill, or finding of fuel-stained soil.

### YES

Incidental Release  
(ex. 0-25 gallons)

**Put on PPE.** Gloves and goggles can be found in spill kits.

**Turn off ignition sources** and avoid vapors.

**Stop the flow.** Close valves, upright container, or create berm with boom/dirt/snow.

**Clean the spill area.** Use absorbents, pads, and other materials to soak up spill.

**Prep for disposal.** Place all used sorbent, snow, soil, and materials into drum or bags using NON-SPARKING tools.

**Label drum(s).** Example:

**POL Spill Residue**  
**August 2022**

**REPORT!**

### NO

Uncontrolled Release  
(ex. 25+ gallons)

**Protect storm drains.**

**Evacuate if necessary.**

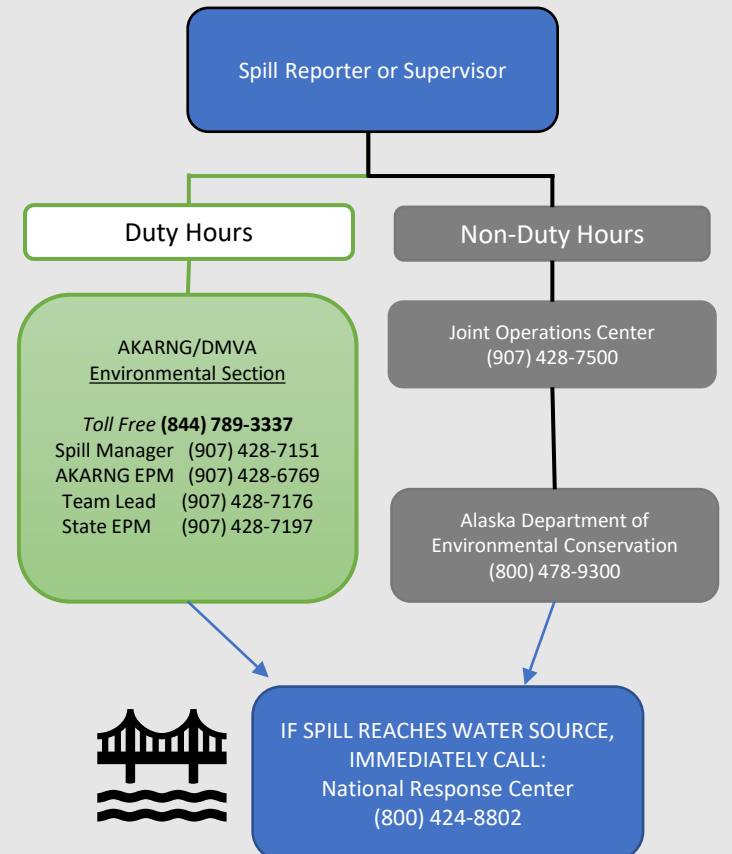

**Call fire/emergency.**

**REPORT!**

### SPILL NOTIFICATION CHAIN

**Do not leave only a voice mail!**  
**Notification is not complete until speaking with a person.**

All spills of any size must be reported to Environmental Section.
